Tour Tips and Helpful Hints

In order to maximize your trip and provide the most enjoyable experience, here are a few quick, helpful things to consider for your visit to Florida Tech:

- **Arrive on time** – This will help make sure all your appointments and scheduled events go off without a hitch!
- **Pack accordingly** – Florida is a subtropical climate and our events usually involve some walking and time outdoors. We recommend wearing comfortable, casual clothing, comfortable walking shoes, and having the proper extras for the time of year (bottled water, sunscreen and an umbrella May – September; sweatshirt or light jacket November – January).
- **See the sights** – Feel free to bring a camera or video camera with you during your visit. It will be a great way to document your visit for future reference. However, due to privacy and security reasons, we cannot allow photography or videography inside the residence hall rooms when they are occupied by current students.
- **Items to bring** – Feel free to bring your transcripts, test scores, and letters of recommendation to the visit (if appropriate). You may also want to bring a list of questions or a checklist of things to learn about.
- **Items to leave at home** – While we are pretty much all animal lovers around here, we would suggest refraining from having a pet on campus during your visit unless absolutely necessary for medical reasons.

We strive to make your campus visit enjoyable, informative and exceptional. We hope these tips will assist you in your visit to campus, and we’re always here to help in any way we can. Please print and clearly display this parking pass for your vehicle. All vehicles parked on campus MUST have a parking pass to avoid a ticket. If you're unable to print this parking pass, we will have copies available upon check-in.

FLORIDA TECH GUEST PARKING
